ABOUT THIS STORY

The Cartoonist Conspiracy is the national organization that promotes collaboration between comic/cartoon artist. One such "conspiracy cell" is in San Francisco, CA.

This comic was created on September 14th and 28th, 2006 at Cafe International. We set up a series of goals: 1) No Dialog or Thoughts 2) Must be about environmental Disasters 3) Each page has to be a combination of 4 specific panels (fig 1), two long and two side by side.

Each artist started their own page, once some headway was made the pages were ordered and the artist linked their work to the following page.

If you wish to join the brave women and men of the Cartoonist Conspiracy who fight for cartoon goodness, visit the official site:
